A suggestion was advanced at vester-day's conference, which may receive the favorable consideration of the commission at an early date. One of the terms of the franchise grant is the paving of North Temple street, from the viadual to Ninth West street, from the viadual to Ninth West street, the expense to be horne by the Saltair company. This street is 132 feet wide. It is proposed to reduce this which to sixty feet by parking spaces on both sides, similar to the arrangement on East South Temple street. This would greatly reduce the cost of the paving, and add to the attractiveness of the street, at the same time leaving it wide enough to accommodate traffic.

The Saltair people have reached no conclusion yet on the matter of accepting the franchise. They were given thirty days in which to signify their acceptance of the franchise and will study the matter from all angles, before reaching a decision. Even if the conditions of the grant are found acceptable, work of electrification of the beach line will not begin until the 1312 season is over.
